SOUND THAT INSPIRES

## WARRANTY CARD

### USER MANUAL AND WARRANTY

A-Star Speaker

#### Bluetooth Connection

Devices with Bluetooth 2.0 wireless technology or above, such as Bluetooth wireless technology equipped computers, smartphones and MP3 players.

To use Bluetooth for your audio connection pair A-Star with your audio source (music player, smartphone, laptop, or other Bluetooth equipped device that can act as audio source). First press and hold the Power button for three seconds until you hear the tone to turn the power on. Once the power turns on the A-Star is in pairing mode. The blue Sync LED will blink slowly and then flash quickly. Make sure Bluetooth is enabled on your audio source, search for available devices and in a few moments "Muve Acoustics: A\*™" will appear on your list of possible Bluetooth connections. Press "pair" or "connect" on your device and when the connection is made the blue led will stop to blink and you can hear 1 sec. flat tone. Your device is paired.

From now on, when you turn on A-Star, it will automatically search for the last Bluetooth device it was paired with. To disconnect and pair with another device, double click quickly the Power button to come back to the pairing mode and repeat the procedure with another device.

#### Wired Connection

A-Star has a standard 3.5mm audio in jack. If there is no Bluetooth source available or if you simply prefer a wired connection, you can connect your A-Star directly to your audio source using the stereo male 3.5mm connection at the end of the cable.
